

# OPTIFUSE | CIRCUIT PROTECTION MADE SIMPLE

## A FLEXIBLE, RELIABLE CIRCUIT-PROTECTION PARTNER FOR CMS & HARNESS SHOPS

## WHO IS OPTIFUSE?

OptiFuse is a dedicated circuit-protection specialist offering a broad, reliable fuse and breaker portfolio—giving contract manufacturers and harness shops a flexible, cost-effective alternative to traditional large suppliers. If it protects a circuit, OptiFuse likely has a solution.

## CORE PRODUCT OFFERING

- Automotive, electronic, and industrial fuses
- Resettable fuses (PTCs)
- Thermal circuit breakers & temperature fuses
- Fuse holders, blocks, clips, and accessories

Supports the most common form factors used in:

- Control panels
- Wire harnesses
- Industrial equipment
- Mobile & heavy equipment

## WHY OPTIFUSE FITS CMS & HARNESS SHOPS

- Broad SKU coverage to support multiple OEM programs
- Strong alternative to Littelfuse, Bussmann, and Mersen
- Consistent offerings across common sizes and styles
- Enables part standardization across customers and builds
- Competitive cost structure with dependable quality

## WHAT MAKES OPTIFUSE DIFFERENT

- Singular focus on circuit protection
- Agile, responsive manufacturer—easier to work with than mega-brands
- Distributor-friendly model built for flexibility
- Well suited for multi-program, high-mix CM environments
