

## MODULAR DESIGN FUSE BLOCKS 4 BLOCKS WITH ONLY 2 MODULES

Versatile, simple to use and easy to inventory. With only two part numbers, OptiFuse's new modular design allows for the creation of four different Regular (ATO/ATC style) blade fuse blocks.

### BASIC MODULES: 2 MODULES FOR 4 BLOCKS

**BLR-I-806** | 6 Position Fuse Block

**BLR-800-G** | 12 Position Ground Block

- Accepts regular (ATO/ATC style) blade fuses.
- Rated up to 30A per position and 100A total for the block.
- Built with an LED light for each circuit that illuminates when a circuit opens and a fuse needs to be replaced.
- Comes with an insulating cover that offers protection against short circuits, as well as from dirt, dust, and splashes.
- Designed with screw terminals for secure wiring, especially beneficial in emergency vehicles.
- Fuse block comes with 60 pieces assorted label stickers and storage for 2 spare fuses.

#### Basic Modules

OptiFuse P/N	Description	Pole	Amps. (per circuit)	Ground	LED	LED
BLR-I-806	Fuse Block	6	30A	-	Y	Y
BLR-800-G	Ground Block	12	-	Y	-	-

# MODULAR DESIGN FUSE BLOCKS 4 BLOCKS WITH ONLY 2 MODULES

## COMBINED MODELS: 2 MODULES FOR 4 BLOCKS

**BLR-I-806** | 6 Fuse Block

BLR-I-806

**BLR-I-806-G** | 6P Fuse Block with Ground Bus

**BLR-I-812** | 12P Fuse Block

BLR-I-812

**BLR-I-812-G** | 12P Fuse Block with Ground Bus

BLR-I-812-G

BLR-800-G **X1**

### Combined Models

OptiFuse P/N	Description	Pole	Amps. (per circuit)	Ground	LED	LED
BLR-I-806	Fuse Block	6	30A	-	Y	Y
BLR-I-806-G	Fuse Block with Ground Bus	6	30A	Y	Y	Y
BLR-I-812	Fuse Block	12	30A	-	Y	Y
BLR-I-812-G	Fuse Block with Ground Bus	12	30A	Y	Y	Y

\*All models can also be sold without covers or without blown fuse indicating LEDs.
