

REACH 253 Certificate of Compliance

OptiFuse declares that all standard products, not called out on Page 2, conform to the requirements of REACH 253 SVHC (Substances of Very High Concern) per the February 4th, 2026 update and the European Community Regulation (EC 1907/2006) which is known as REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals).

For additional details regarding REACH 253, please visit the link below:

https://environment.ec.europa.eu/topics/chemicals/reach-regulation_en

A complete list of restricted chemicals can be found on Page 6 of this statement.

OptiFuse is committed to providing safe products consistent with the improvement and protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substances. The restricted chemical substances, listed on Page 3, are not present in our products for quantities totaling over one ton per producer a year and are not present above a concentration of 0.1% by weight.

OptiFuse defines “REACH Compliant” to mean that banned substances are not intentionally added during the manufacturing process and have upper concentrations within REACH acceptable limits.
